K. Charls 2. 1648. *Jan.* 30. whom God grant long to Reigne.

A general Description of the four parts of the Year; and first of the *Spring*.

The Spring beginneth with the Suns ingress into the first minute of the Equinoctial Signe Aries which happens with us upon Wednes. the 9 of March at 6 of the clock at night: and continueth the Suns curtion through Aries, Taurus, and Gemini, and causeth equal day and night to the inhabitants of the whole Earth. Now he taketh his leave of the Southern, and beginneth to send forth his comfortable influence to the Northern part of the world.

Of Summer.

This Quarter beginneth with the Suns entrance into the first scruple of the Tropical Signe Cancer, being this year upon the 10 of June, at 9 of the clock at night, and continueth the Suns itineration through the Signs Cancer, Leo, and Virgo. At this time the Sun maketh his neerest approach to our Zenith, having the greatest North declination from the Equinoctial, thereby causing the longest day, and shortest night in the Northern Hemisphere. About this time the Sun is in his Apogeon, or point farthest distant from the Earth.

Of Autumn.

This Quarter beginneth with us on the 12 day of September, 6 minutes past noon; at what time the Sun passeth into the Equinoctial Signe Libra, thereby co-equating the days and nights throughout the whole world, being once more bifrontal, and equally radiating to the Artick and Antartick Poles; and continueth his perambulation through Libra, Scorpio, and Sagitrarius.

Of *Winter*.

This Quarter takes beginning at the Suns ingress into the first scruple of the imaginary sign Capricorn, which hapneth this year on the 10 day of December, 47 min. past 11 at night, and continueth the Suns progress through Capricornus, Aquarius, and Pisces; being now in his greatest distance from our Zenith, and obliquity from the Equinoctial, causing the shortest day & longest night to the Northern Hemisphere.

Memorable accidents to this year 1664.

Excellent Notes of Husbandry and Gardning, for every Moneth in the Year.

IN January cut down Timber (and it shall not chink nor be eaten with worms) in the last quarter of the Moon set or sowe Kernels, and Berries of Way-trees, Privet, and Box. Set Quick-sets, Rose-trees, Peaches, Filberds and Plum-trees; and remove trees if the frost be not too hard, prune and lop them before full Moon: sowe or set Beans and Pease, and dung land in the last quarter: geld Cattel to rear, fallow land for Wheat and Rye: Trench Gardens with dung, and remove Bees, and for your own health, keep your body warm, let good and wholesom diet be your Physitian, moderate exercise and labour your sawce to cause appetite.

February.

NOw sowe all sorts of Pease and Beans, and other Pulse, sowe Mustard-seed, cast up ditches, set and plant Vines, Hops, Gooseberries, and any fruit that grows upon bushes, prune and trim all sorts of fruit-trees from mols, canker, and all superfluous branches. Graft in the latter end of the moneth

moneth, sowe Onyons in cold stiff land: Take heed of cold, forbear flegmatick meats.

March.

IN the new of the Moon (the wind any but West or South) graft Pear, Warden, or Apple-trees, make an end of sowing all manner of Pulse, and begin to sowe Oats, Barley, Parsenips, Onyons, Carrets, Cucumbers, Melons, and all kind of Pot-herbs, slip Artichokes and Sage, geld Lambs, let blood according to strength and necessity, the sign and weather also being fit (but take advice of the learned Phisitian) look what disease cannot be cured in the Spring time by phisick, will hardly be cured all the year after.

April.

SOwe Barley, Hemp, and Flax, Pole Hops, set and sowe all kinde of Garden herbs, open Hives, and let Bees labour for their living, let Tanners now provide them for Barks, and all good Housewifes look to their Dairies; bleed and purge with advice those that are troubled with aches, or the gout, let them go to the Baths in this or either of the months.

May.

SOw Barly on all light lands and bearing grounds, and likewise Hemp and Flax, and all manner of fine seeds and herbs, take Lambs from their Dams, stir land for Wheat and Rye, leave lopping of Trees, teach Hops to climb, but cut off the superfluous branches, Rise early, walk the fields, especially by running streams, Sage and sweet Butter is now an excellent breakfast, Sage and clarified Whey, as also Scurvy-grass-Ale, and Wormwood Beer, are wholsom drinks to be drunk fasting.

June.

SHear sheep, bring home fuel, weed Corn and Gardens, set Rosemary, Carnations, and Gillyflowers, sowe Lettuce and Radish-seed three or four days after the full, for then they will not run to seed, make

hay, carry Sand, Lime, Marl, and Manure, of what kind soever befitting your land, cut neither hedge nor Tree in this and the two next moneths, beware of great thirst, use thin and light Diet, moderate exercise, and chaste thoughts.

July.

APply making and getting in of hay, Pull hemp that is ripe, gather Garden Beans, get Rue, and Wormwood, and Gaul to strew on your floors, to destroy Moths and Fleas, fence your Copses, use moderate diet, take heed of great thirst, for nothing bringeth the Pestilence, or pestilent diseases sooner, then extream thirst, and fervent heats, and cold taken also suddenly upon them: Take no phisick, bleed not but upon all violent occasions.

Labour in Summer, take pains with the Ant,
Else in the VVinter live poor, and in want.

August.

FOllow close your Corn-harvest, sowe Winter herbs in the new of the Moon, gather Garden-seeds, mowe Barly and Oats, gather Summer fruits, refrain from sleeping in the day time after meat, avoid riot and excess.

September.

IN the beginning of this moneth, and end of the former, gather Hops when they wax brown, the weather being fair, and no dew on the ground, kill Bees, make Verjuice, sowe Wheat and Rye, remove and set all slips of flowers between the two Lady days, put Swine to Mast, remove Trees every new Moon, from September until February, especially in the new of the Moon, the weather fair and warm, the wind South or West: use Phisick moderately, forbear fruits too pleasant, or rotten, shun riot, and excess of diet.

October.

SOw Wheat and Rye, the sooner the better, for fear of rain, set Acorns and Nuts, gather Winter fruit,

the

the weather dry, in the afternoon, and in the wane of the Moon. Cut Rose-trees, if you desire to have store of Roses, do this once in two years, refuse not any needful physick at the hands of the learned, and use all moderate sports to revive the vital spirits to the service of God only.

November.

MAke Vault, kill Hogs, trench Gardens with dung, set Crab-tree stocks, sowe Wheat and Rye in exceeding hot sandy grounds, cut down Timber for Ploughs, Carts, and other implements for husbandry, use wholsome meat and drink, with good exercise to preserve health.

December.

IN this and the next moneth, cut down Timber in the last quarter of the Moon, uncover the roots of fruit-trees, set Beans and Pease, cover all your best flowers and herbs from frosts and storms, with old rotten horse-dung, look well to your cattel, water and keep moist your medows, let horses blood, and to conclude, drink good Wine and strong drink, keep thy body warm clad, thy house warm and dry, banish all cares from thy heart, and feast thy poor neighbours, rejoycing that God sent his only begotten Son about this time into the world, to save all such that lay hold on him with a true and lively faith.

Neque is qui plantat, neque is qui rigat,
Sed Deus qui dat Incrementum.
